Noa Abrahao Kim

noanonoa@gmail.com • Los Angeles, CA • noakim.io • linkedIn • GitHub

I am a nimble learner and tenacious software engineer. My mission is to perform at the highest level and bring more value to the team I work with. I am currently looking for positions that challenge me to grow and where I can zealously contribute.

LANGUAGES AND TECHNOLOGIES

- Languages: HTML, JavaScript, CSS, Python, SQL
- Technologies: Express, React, PostgreSQL, MongoDB, Bootstrap, jQuery, Node, Git
- Testing: Jest, Mocha, Chai, Puppeteer
- Fluent in: English, Korean, Spanish, Portuguese

PROJECTS

- CastMash – **React, CSS, JavaScript**
  Web app which lists any movies that two actors made together. My contributions were on the back-end API implementation. See the code on GitHub.
- Viz Money – **React, CSS, D3.js, PostgreSQL, Node, Express**
  A data visualization app to track spending and financial goals. See the code on GitHub.
- noakim.io – **HTML, CSS, JavaScript**
  A personal portfolio built completely from scratch. The site was created using mobile-first design and fully responsive with custom functionalities. See the code on GitHub.
- Flappy Bird – **HTML, CSS, JavaScript**
  A rebuild of Flappy Bird using Object Oriented Programming to handle rendering, animation, and game logic. See the code on GitHub.
